

Profitable Operating Restaurants

Established restaurants with positive cash flow. Ideal for first time restaurant owners and seasoned operators. Unlimited possibilities, perfect for continuing the current concept or transforming into your own vision.

Founded more than 30 years ago, the name has become synonymous with great food!

Located in the smaller markets, this chain dominates the local food landscape, making it a “hometown favorite” with a loyal customer base. With a varied and delicious menu, there’s something for everyone from kids to adults.

The restaurants currently operate for lunch and dinner, but with the addition of breakfast items, it would capture a loyal morning clientele. You will have the option to grow this concept into other “small town” markets to become a household name for delicious food.

Two restaurants available in two different towns both have strong sales, are in a great location, have a drive-thru, ample parking and seating. Don’t miss this opportunity! Specific details will be disclosed upon NDA.

Investment highlights

1. Opportunity to expand locations without franchise fees or royalties
2. Benefit of opening and operating in smaller towns
3. Lower entry cost for building and FF&E
4. Strong sales with positive cash flow
5. Opportunity to expand the menu and add an additional daypart.
6. Easy to run- Supervisor in place so owner does not have to be 24/7
